

FRAC SCREEN-OUT SUPPORT

NewKota
Services & Rentals

Rental and service packages

NewKota screen-out packages are available for rent or as a turnkey service complete with our trained operator. Packages feature an open top tank with 500bbl capacity and all that is required to optimally and safely perform. For convenience, a five-valve manifold and 200ft of 1502 iron piping are skid-mounted and integrally delivered with the tank.

- Rental only or manned for turnkey operation
- 500bbl capacity open top tank and tandem diffusers
- Skid mounted 5-valve manifold with 200ft of 2-inch 1502 pipe
- OSHA compliant tank with safety integrated line restraint
- Optional 9-valve manifold and 3-inch pipe
- All required fittings, flanges and valves provided

Services you can trust

NewKota has earned a solid reputation for providing innovative, safe and efficient equipment rentals and services to the oil field industry. We take extreme pride and ownership in every project.

Done right, the first time, every time

Trust NewKota to save you time and money. We offer a growing range of 100% satisfaction-guaranteed oil field support services and equipment rental options – all designed to keep your operations running at peak performance. Rentals include equipment designed and patented by us to optimize the cost and performance operations of the oil field industry.

Open-top Tanks

- Higher capacity 500bbl open-top tanks
- Unique diffuser systems for optimal separation
- Three-stage separation using two weirs
- Velocity-reducing tandem diffusers
- Versatile, multi-point suction system for cleanest fluid removal
- OSHA compliant design with many safety-integrated features

Pipe Ramp Rental

- Safely cover high-pressure lines and flare lines up to 7.5" dia.
- Safety rated for up to 100,000 lbs.
- Clearly marked caution and restriction signs on each ramp
- 15ft, 22ft, and 30ft configurations

Steam Heating Services

- Avoid costly downtime due to frozen pipes and equipment
- Economical deicing service agreement options
- OSHA compliant professional steam heating and thawing
- 100% dry steam units eliminate moisture buildup and mud

Cleaning Services

- Rig cleaning
- Tank cleaning
- General cleaning

Light Tower/Generator Rental

- 8kw and 20kw available
- Competitive rental rates
- Service and quality guaranteed
- Maintenance and transport packages to fit your needs
